Experience

ISRO – INDIAN SPACE RESEARCH ORGANIZATION

Dec 2022 – Jun 2023

Project Internship | Bangalore, India

- Addressed ISRO-RRSC's longstanding concern on **lake water quality assessment**.
- Prototype assesses the water quality of lakes & classifies the the water quality based on **Machine Learning** Model.
- Employed **Agile** methodology in designing and developing a robust application.
- My key responsibilities included **website development** and **DBMS** management for the authentication system.

Technologies & Tools : Java, J2EE, SpringBoot, REST APIs, SpringMVC, Hibernate, Java Database Connectivity (JDBC), MySQL, ORACLE SQL*Plus, JavaScript, HTML5, CSS3, Document Object Model (DOM), Bootstrap, Git, GitHub.

Solved 100+ Data Structures & Algo. [Click Here](#) LEETCODE [Click Here](#) GitHub [Click Here](#)

PROJECTS

Web Scraper – Multithreading | [GITHUB](#)

Jun 2024 – Jul 2024

- Developed a **dynamic** web scraper servlet in Java utilizing **Jsoup** library for parsing HTML content.
- Implemented multithreading with **ExecutorService** to concurrently scrape multiple URLs, resulting in a **24.48% reduction in execution time** compared to single-threaded processing.
- Skills used :** • Multithreading • J2EE • Servlets • Jsoup Library • HTML5 • CSS3 • Git • GitHub

POS Food Order Application – SpringMVC | [GITHUB](#) [Video Demo](#).

Dec 2023 – Jun 2024

- Engineered** a POS (Point of Sale) application to streamline customer data and food order management, enhancing data handling efficiency and order history insights.
- Implemented authentication system**, granting user privileges and managing customer profiles.
- Pioneered a high-fidelity interface** for improved user engagement and experience.
- Skills used:** • Spring MVC • J2EE • Hibernate • Document Object Model • DBMS • MySQL • JavaScript • HTML5 • CSS3 • Git • GitHub

TO-DO List – Using browser's Local Storage | [TRY NOW](#)

May 2024 – May 2024

- Engineered a dynamic to-do application with HTML5, CSS3, and JavaScript, implementing local storage for persistent task saving and optimizing performance and UI for a seamless user experience.
- Skills used :** • JavaScript • Document Object Model • HTML5 • CSS3 • Pug • Git • GitHub

EDUCATION

JSPIDERS – TRAINING AND DEVELOPMENT CENTER

Dec 2022 – Present

JAVA FULL STACK • BANGALORE, INDIA

MVJ COLLEGE OF ENGINEERING , B.E.

Aug 2019 – Jun 2023

ELECTRONICS AND COMMUNICATION ENGINEERING • BANGALORE, INDIA

SRI CHAITANYA COLLEGE OF EDUCATION

Mar 2018 – May 2019

12th CBSE • PCM-IT • BANGALORE, INDIA
